

**Unity Utilities District**  
**Permit Application for Connection to Sewer**  
**Permit Required for all new construction and change of use situations**

1. Complete the entire application and return to the Unity Town Office with a permit fee of \$25 (check made payable to Unity Utilities District (UUD)).
2. After the application is reviewed by the Board Members of UUD, and signed, you will be granted a permit allowing you to connect to the sewer. Please allow five business days for District review.
3. The connection must be inspected by the UUD Superintendent before any work is covered. Once the District is notified of a request for inspection, please allow up to five business days to coordinate an inspection. Inspections will be conducted during normal business hours (M-F, 9am-5pm). Your contractor must be present at the inspection. The developer is responsible for ensuring that all sewer work is done in accordance with the guidelines stated below. Any subsequent work needed to meet these guidelines will be performed at the expense of the developer.

*Under no circumstances will a connection be made to the public sewer without inspection of the building sewer and connection or without following construction standards for building sewers and connections found in Section 900.0 of the UUD "Rules and Regulations for the Use of Sewers" enacted February 2006 and amended as necessary.*

Date Received by Town Clerk: \_\_\_\_\_ Receipt Number: \_\_\_\_\_

Approved By:

\_\_\_\_\_, Chair of UUD. Date: \_\_\_\_\_
